Business development in times of Covid-19 and Highlights Q2/2020

Q2

Aareal

Business development in times of Covid-19

Staying on course: Managing Covid-19 challenges and pursue strategic initiatives consistently

Q1/2020 / May 2020

What we see:

The perfect storm

Covid-19 caused the sharpest global recession in post-war history - with dramatic effects on all sectors of the economy

How we entered into this crisis:

Robust and resilient

- Conservative risk profile
- Strong capital base
- Solid liquidity position
- Well-diversified business

What we expect:

Gradual recovery

Continuous normalisation from mid 2020 onwards, followed by a significant recovery (“swoosh” shaped) in 2021

Q2/2020 / August 2020

What we see:

First signs of gradual recovery...

... but more pronounced (than expected) dip and still high Covid-19 risks and uncertainties

How we maneuver through the crisis:

Staying on course

- As a reliable partner being in close contact with our clients finding solutions, supporting where necessary
- Precautionary model based risk provisioning and value adjustments
- Pursue strategic initiatives consistently
- Continue de-risking when opportunities arise

What we expect:

Gradual recovery continuous

Sticking to “swoosh scenario” with more pronounced dip considering slightly slower recovery

Highlights Q2/2020

Slightly positive result in the lock down quarter despite Covid-19 impacts and further successful accelerated de-risking activities

Aareal Bank Group	Solid Group Financials	<ul style="list-style-type: none">▪ Q2 operating profit of € 2 mn considering precautionary risk provisioning and value adjustments as well as further successful accelerated de-risking activities▪ Strong capital, funding and liquidity position
	Resilient Segment Performance	<ul style="list-style-type: none">▪ SPF:<ul style="list-style-type: none">- New business: low LTVs and strong, significantly above plan margins partly mitigated by higher funding spreads- Precautionary model based risk provisioning and value adjustments- Italian NPLs significantly reduced (07/20)▪ C/S Bank:<ul style="list-style-type: none">- As expected, housing industry deposits proven stable- Commission income increased in line with guidance▪ Aareon:<ul style="list-style-type: none">- Remaining on track, Covid-19 seen as mid-term catalyst for digitisation- Strong sales of digital products
	Outlook¹⁾	<p>From today's point of view, Aareal Bank Group remains confident that it can achieve a substantially positive consolidated operating profit for the 2020 financial year, i.e. in the mid- to upper double-digit euro million range. Further effects from potential accelerated de-risking measures are not included.</p>

1) Naturally, in the current environment, this forecast is subject to significant uncertainty, especially with regard to the assumed duration and intensity of the crisis, the pace of recovery and the associated effects on our clients, as well as prevailing unclear regulatory and accounting provisions, and the possibility that individual loan defaults cannot be reliably predicted

Asset quality

Actively managing Covid-19 implications

Covid-19 implications

- Normal loan servicing by vast majority of our clients
- In close contact with our clients
 - Review business plans
 - Loan agreements / covenants realigned where necessary
 - Primarily hotel and retail in focus
- Debt service
 - Significant liquidity injections by clients / sponsors, keeping substantial liquidity reserves
 - Governmental programs providing additional support
 - So far, only minor amortisation holidays (€ 76 mn) and credit / liquidity lines (€ 84 mn) granted by Aareal Bank
- Property values
 - As external appraisals were not possible / realisable, LTVs¹⁾ and RWAs²⁾ are hardly affected so far, Ø portfolio LTV of 57% with little variance reflects good entry level however
- P/L
 - Precautionary model based risks provisioning (management overlays) anticipating possible changes in property value
 - Covid-19 related impact of € 44 mn (LLP and fvpl-results) in Q2 (H1/20: € 94 mn), thereof management overlays of € 33 mn (H1/20: € 50 mn); additionally scenario based value adjustments of € 13 mn for own assets (Other expenses)

Uncertainties continue, but Aareal has comfortable headroom due to conservative risk parameters and a solid capital position

1) LTV pre Covid-19, asat 30.06.2020

2) Ratings not yet reflecting potential changes from management overlays

Asset quality: Hotel Portfolio

Actively managing Covid-19 implications

Hotel

- Hotel of € 8.7 bn focussing on 4-5 star properties within city centres
- Well diversified portfolio with respect to region and demand sources
- Based on current market research it is expected that
 - The leisure segment will recover first, which has already been witnessed by strong bookings in drive-to holiday and city locations
 - The corporate segment will follow thereafter and the speed of recovery will be more visible after the summer holidays as of September
 - The MICE segment will take the longest to recover, and will depend on local regulations regarding permitted size of events as well as on the configuration of the meeting facilities within the individual hotels
- Only appr. 10% of our portfolio with expected prolonged recovery period, e.g. luxury, airport hotels, convention
- Ø YoD from 9.6% (in Q1 2020) to 4.5% as a consequence of the crises, however still positive
- Over 90% of the total volume based on management contracts
- Over 90% with large international hotel brands
- Pre-crisis, as the hotel industry has gone through 10 consecutive years of RevPAR (revenue per available room) growth in all major markets a large share of our hotel owners have been able to build substantial reserves
- Investment finance only, no developments
- Good entry LTV of 56% on total hotel portfolio, only € 37 mn with LTV¹⁾ > 70% only € 37 mn
- Defaulted exposure: € 178 mn
(€ 152 mn as at 07/2020, NPL ratio of hotel portfolio: 1.8% vs. total NPL ratio of 3.7%)

1) LTV pre Covid-19, asat 30.06.2020

Asset quality: Retail Portfolio

Actively managing Covid-19 implications

Retail

- Retail portfolio of € 5.9 bn, thereof ~80% of total portfolio located in Europe
- Largest portfolio share in UK (~€ 1.1 bn), US (~€ 1.1 bn), DE and ES (~€ 0.8 bn each) and IT (~€ 0.7 bn) with substantial state support programs for tenants in place
- All major markets already lifted lock down measures but retail activities partially still limited by safety requirements
- Footfall still below pre-crisis level, but first sign from re-openings indicate positive signals to get back to normality. In many centres sales revenue per customer increased
- Covid-19 related Ø YoD decrease so far limited from 9.6% in Q1 2020 to 8.6% in Q2 2020
- Based on current market research it is expected that
 - Malls: Accelerated transformation of the retail concepts is expected such that the dominant assets which fulfill omnichannel requirements will recover faster
 - Retail parks are less impacted and seem to be more compatible with the safety and health requirements due to Covid-19. Supermarkets hardly effected by lock-down due to the importance in the daily supply
 - Prime- / Luxury-High-Street segments seem to recover faster in some markets (e.g. Asia) although still travel prohibitions in place
- Highly committed and professional sponsors with high quality assets
- Good entry LTV¹⁾ of 59% -
on total retail portfolio only € 182 mn > 70% / € 103 mn > 80% / € 60 mn > 90%
- Investment finance only, no developments
- Defaulted exposure: € 369 mn

Capital, B/S, Funding/Liquidity

06

Capital

Solid capital ratios

- Capital ratios significant above SREP requirements
- Slight B3-RWA increase in Q2 due to slightly higher portfolio and first Covid-19 effects
- Additional Covid-19 impact on B3-RWA in H2 expected to be partially mitigated by CRR3 Quick-Fix
- B4-RWA less exposed to Covid-19 volatility due to floor
- Significant CET1, AT1 and T2 buffers; continuously reviewed regarding optimisation potential in the context of the total capital management and group strategy
- T1-Leverage ratio still 5.8% despite TLTRO participation
- Remaining regulatory uncertainties (models, ICAAP, ILAAP, B4 etc.): modelled RWA's may further inflate

1) Underlying RWA estimate, given a 72.5% output floor based on the final Basel Committee framework dated 7 December 2017, calculation subject to outstanding EU implementation as well as the implementation of further regulatory requirements

2) Ratings not yet reflecting potential changes from management overlays

3) When calculating own funds as at 30 June 2020, interim profits were taken into account, deducting the pro-rata dividend in line with the dividend policy, and incorporating the pro-rata accrual of net interest payable on the AT1 bond. Moreover, the expected relevant impact of the TRIM exercise on commercial property financings, and of the SREP recommendations concerning the NPL inventory as well as the ECB's NPL guidelines for exposures newly classified as NPLs, were taken into account for determining regulatory indicators.

SREP (CET 1) requirements

Demonstrating conservative and sustainable business model

B3 CET1 ratio vs. SREP (CET1) requirements

- B3 CET1 buffer translates into > € 1.3 bn
- P2R relief by using possibility of partially fulfilling requirements with AT1 and T2 capital
- Total capital requirement 2020 (Overall Capital Requirement (OCR)) amounts to 12.8% compared to 29.5% total capital ratio
- All ratios already include TRIM effects as well as prudential provisioning

- Countercyclical Buffer
- Capital Conservation Buffer
- Pillar 2 Requirement
- Pillar 1 Requirement

B/S structure according to IFRS

As at 30.06.2020: € 45.3 bn (31.12.2019: € 41.1 bn)

- Well balanced B/S structure
- Temporary significant increase of total assets due to participation in ECBs' TLTRO (> € 4 bn) currently reflected in money market positions

1) CREF-portfolio only, private client business (€ 0.4 bn) and WIB's public sector loans (€ 0.3 bn) not included

2) Other assets includes € 0.4 bn private client portfolio and WIB's € 0.3 bn public sector loans

Funding / Liquidity

Diversified funding sources and distribution channels

- Sustainable and strong housing industry deposit base stays at a high level of well diversified funding mix
- Successful issuance of several senior unsecured private placements during the first 6 months with a total volume of close to € 500 mn (H1 2019: € 143 mn)
- Liability buy-backs to improve secondary market liquidity driven by investor demand
- Participation in the latest TLTRO III with a volume of more than € 4 bn
 - TLTRO offers attractive refinancing costs¹⁾ for a maximum of three years
 - Additional option for bonus of 50 bps for one year, if the relevant loan portfolio stays at least at the same level

Outlook 2020

07

Outlook 2020 confirmed

We had qualified our annual forecast published in the 2019 Annual Report, noting that the impact of the COVID-19 pandemic cannot be reliably estimated and that it is thus impossible to anticipate the consequences for business and earnings development.

In the remaining course of the year and in addition to our strategic initiatives as part of “Aareal Next Level” we focus to overcome the challenges and impacts from the Covid-19 pandemic together with our clients.

Crucial Question:

When will the economic recovery kick-in? With what momentum?

Our assumption:

We assume a continuous normalisation of the global economy from mid 2020 onwards followed by a significant recovery (“Swoosh” shaped) in 2021 / 2022

Our Outlook:

From today’s point of view, Aareal Bank Group remains confident that it can achieve a substantially positive consolidated operating profit for the 2020 financial year, i.e. in the mid- to upper double-digit euro million range. Further effects from potential accelerated de-risking measures are not included.

Naturally, in the current environment, this forecast is subject to significant uncertainty, especially with regard to the assumed duration and intensity of the crisis, the pace of recovery and the associated effects on our clients, as well as prevailing unclear regulatory and accounting provisions, and the possibility that individual loan defaults cannot be reliably predicted.

Key Takeaways

Key takeaways

Robust business in tough times	Resilient performance	Aareal Group stays positive on operating profit and EpS-level despite significant Covid-19 related burdens, thanks to its strong business performance
	Manageable risks	Precautionary model based risk provisioning and value adjustments, combined with a highly intense monitoring of the credit portfolio to keep Covid-19 impact under control
	Strong capital and liquidity position	Aareal Group is well-equipped to weather burdens from Covid-19
	Confirmed guidance	Despite continuous high level of uncertainty, Aareal Group confirms its earnings outlook for FY-2020
	Compelling strategy	Regardless of high attention to manage through the crisis, Aareal Group continues to execute on its strategy with full speed

ESG initiatives

Investing in the transition to a low-carbon economy

ESG supportive regulation – facilitating energy-efficient modernisation / renovation loans

Aareal supports an ESG-based regulation of refurbishments

“I believe that fundamental renovations aimed at improving the life cycle assessment of a building should be supported by the regulatory authorities and not penalized. Of course, one can subsume renovations under “risky” property development and then attach correspondingly high capital requirements to them. On the other hand, if you don’t completely renovate a building you will hardly be able to immediately meet the next climate standard. ...

I am not talking about reducing capital adequacy requirements at all. But we would have gained a lot if refurbishment didn’t necessarily trigger an increase. ...”

Summary Aareal Next Level

Highlights

We have clear visions of how to develop further our individual business activities in order to strengthen their respective independent profiles

Regardless of the continuous adverse environment and due to our confidence in the consistency of our strategic measures, we feel comfortable with confirming our highly attractive dividend policy with a payout ratio of 50% base plus 20-30% supplementary dividend

By investing in our businesses, we will significantly increase profitability and further enhance strategic optionalities. In a more supportive environment we aim a 12% pre tax RoE

Our Dividend Policy – Confirmed despite significant regulatory burdens

Payout ratio of up to 80% confirmed

Base
Dividend

Supplementary
Dividend

- We intend to distribute approx. 50% of the earnings per ordinary share (EpS) as base dividend
- In addition, we plan to distribute supplementary dividends of up to 20-30% of the EpS under the following prerequisites:
 - No material deterioration of the environment (with longer-term and sustainably negative effects)
 - Nor attractive investment opportunities neither positive growth environment

Significant book value per share growth incl. dividend

- Attractive dividend policy and significant book value growth creating sustainable value for Aareal and hence our shareholders

Regulation

Appendix

Economic ICAAP the next focus on the regulatory agenda – our reading and take away

- 1 Economic ICAAP on SSM priority list 2020**

 - Ongoing discussions regarding interpretation of requirements
 - Different methods currently used throughout Europe to estimate future volatility (scenario based vs. VAR models)
 - ICAAP Guidelines published end of 2018 are very conservative regarding holding period and confidential interval
 - ECB aims for future harmonization (equal to TRIM?) and potential tightening

- 2 AT1 with normative triggers will no longer be eligible under Economic ICAAP:**

Regulatory capital ratios: Future treatment appears to be more generous, although decisions will be taken on a case by case basis

- P2R could be partly covered by AT1 (and/or T2)

Economic ICAAP: Future requirements will be tightened

- AT1 with normative triggers not accountable any more (see ECB feedback statement; question 208)
- Interim grandfathering of existing AT1 (issued, cut off date?) not decided yet, but unlikely from our point of view

- **AT1 in the economic ICAAP, currently and presumably in future no alternative instruments (beside CET1) available to fulfil ECB requirements (economic triggers instead of normative)**
- **Economic ICAAP to become the new capital constraint for European banks?**

1) Different risk categories regarding regulatory capital ratios and economic ICAAP
